Thanks for your quick response Teresa.

Jeff's comment was that it was awkward when we used both quotes and citations. He is suggesting that we use citations. We quoted Schmidt but I don't think we cited him. He also raised this question with the Whittaker and McShane document. Do you have the citation as well? I think part of the problem may be that I am wrestling with "version control". We have lots of folks – technical, management and legal- all reviewing various versions of various issue documents and rationale documents. It seems to be the nature of the CZARA beast right now.

Sorry about this.

Alan

Sounds good Teresa. I am trying to put the final touches on the Landslides rationale document and am addressing comments from Jeff Lockwood. He is suggesting that we include a citation for Schmidt et al. 2001. Do you have it or have access to it? If not, I could do some searching for it.

Hope all is going well.

Alan

I saw your call come through - I'm on the SMG call – should be off in ½ hr or so and will give you a ring back.
